Thanks Jan for answers!!!!
1.Jan how are you?

Cheers there. I am doing quite fine. Drinking some coffee and doing this interview. It's snowing outside over here at the moment and president Bush is in Belgium now, in case someone is interested, hahaha.

2.What is new the band Agathocles?
We just released the AG/BLOODRED BACTERIA split EP on RAW NOISE RECORDS from USA. And also the AG "Razor sharp daggers" LP has been repressed on the Italian label SOA RECORDS. We are also working on new songs for the new studio album.

3.Your music is Grind-Core,do you Grind Core belong HC or Metal?Maybe
Punk?
I guess we have influences from both punk and metal. We grew up with both styles of these kinds of music. But both the extreme kind of punk such as NEOS, LARM, CYANAMID, PANDEMONIUM, CONFUSE, ….and the extreme kind of metal such as old BATHORY, HELLHAMMER, POSSESSED, ARSENIC, HELLHOUSE, POISON (German one), REPULSION,…..
4.Do you lyrics anachistic theme?
Yes, we do have lyrics about anarchism. Anarchism for us means autonomy, taking up your own responsibilities, creating your own life as much as possible. But we are into socio-anarchism, which means that society in a whole needs to be changed and that we don't need an elite anarchist society on some isolated island.

5.Do you anarchist?Do you believe in anarchy?
I do believe in the principles of anarchism. I think it's important that such values are around, as an alternative to the ruling standards which give the state too much power. But as said before, we are into socio-anarchism and not into the elite crew of anarchists. Anarchism should be something positive for everyone, and not only for the mindlikes.

6.Your opinion about satanism,racism,animal leberation,straight edge.....???
SATANISM: Some ideology which wants to be different but at the end is just the same as any other kind of organized religion. And also, Satanism is too much based upon individual welfare instead of social welfare. I am not into that way of thinking.
RACISM: irrational hatred for the unknown….it's mechanism which seems to be typically human (sad but true) and is fed by media-propaganda and certain political movements.
ANIMAL LIBERATION: sometimes a truly necessary way to act
STRAIGHT EDGE: I have now problems with SE at all, but don't make it a dogma or somekind of religion.

7.Concerts.Do you problems with you concerts,violence???
We have got some problems with nazis at our gigs but that does not happen a lot any

more. As for the rest, we don't see many problems at our gigs. It's mostly a big party among friends.

8.Agathocles have more albums.Who is the best?

Difficult to say for me…I like all albums in some way. The AG "To serve…To protect" album is a special one for me. This one is from 1999. 16 songs on this one.

9.Do you hear Serbian(Yugoslavian)Grind,HC,PUNK bands???

Yes, I have heard some. One of the best Serbian bands is ACROHOLIA. Killer raging grind. I guess they have split up since long time by now. Other bands from ex-Yugoslavia that I really like are TOZIBABE, SDA, UBR, III KATEGORIJA, KBO (from Macedonia), HERPESS DISTRESS, BUKA, PATARENI, EXTREME SMOKE, DEEPER THAN WORLD, NIET (they rule), BULDOZER (old punk band),….and so many more.

10.Whom music listen except Grind Core???

I listen to raw punk, raw old school metal such as DEATHSTRIKE, NO MENTAL EFFORT, BLACK TASK,….cold wave and new wave, industrial/experimental, 70's disco, acid house,…I think every kind of music has good stuff to offer.

11.New record???

Ha, we are working on new songs for a new full album and also, we still have some new stuff that has to be mixed.

12.Jan,all the best from Serbia,SEE YOU!!!!!!!!!!

Thanx for the interest in AG and for doing the interview. Good luck with the zine in the future. If people wanna get in touch with us, try our drummer at roel_agathocles@hotmail.com or write to me at JAN FREDERICKX, ASBERG 8, 2400 MOL, BELGIUM. Oh yes, I am looking for videos from NIET. They did some in 1984/1985, so if anyone can help me, get in touch. Thanx. Mince on and check www.agathocles.com

Last Hope is a Old School Hard Core from my neighbors Bulgaria,thanks Aleks for answers!!!Enjoy!

1.Hi Alex, How are you?

Hi, I\'m fine thanx!

2.What is new with your band Last Hope?

Right now we\'re working o n our new songs for the next LAST HOPE album, which hopefully should be ready by the summer 2005... We\'re also getting ready for some upcoming gigs, including few dates together with Agnostic Front in Serbia, Bulgaria, Greece...

3.Last Hope is a old school HC band, your opinion about straight edge movement?

I would rather say Last Hope is just a hardcore band - not old school or whatever school... We\'re not a straight egde band, but we all respect the drug-free way of life! In my opinion Straight Edge is great movement with cool positive ideas and I got nothing but respect for it! It\'s great as far as nobody push it to extremes and just keep it personal - everybody has the right to choose and do whatever he/she wants with their lives... For me Straight Edge means my better way of life but it\'s strictly personal choice!

4.You is straight or not? Do you drink alcohol???

Yes, I\'m straight - I don\'t drink alcohol, don\'t do drugs, etc... but it\'s just me who is straight edge in Last Hope. The rest are definitely not straight edge... I\'ve been straight for over 10 years...

5.Concerts.Last Hope played with 25 ta life in September 2004?Your opinion about this concert in Belgrade?

Yes, in September we were o n European tour with 25 Ta Life - the show in Belgrade was o ne of the best shows of the whole tour, in fact Belgrade and Sofia were undoubtedly the best shows from the whole tour! Belgrade was amazing, real hardcore show, good friends, great atmosphere, nice attitude, a lot of fun... what else can I say - just amazing

6.28.martch Last Hope in Belgrade played with legend HARD CORE music Agnostic Front. Do you live for this concert?!

Sharing o ne stage with the godfathers of hardcore Agnostic Front is great honor for us and a dream coming true. Actually Last Hope will be the support band o n all Balkan dates of the AF tour, so that makes us twice happier! We\'re very very excited about this!

7.How much you play in Serbia? Who concert is the best?

We\'ve played 4 times in Serbia and with every next gig it\'s getting better and better, people seems to like us and what we do - definitely the best show so far was the last o ne in September 2004 (with 25 Ta Life) - that show was just amazing, pure hardcore! We\'re looking forward our next visit in Belgrade - o n 28.03.2005 with the AF!

8.Your opinion the best HC band Hitman from Belgrade?

Hitman is amazing band - we love them, as band and as people! Great friends! Hitman is our "brother-band" in Serbia - that\'s why we did together the Last Hope / Hitman "Balkan Hardcore Split 2004" - that split-record truly represents our Friendship, Unity and Respect!

9.Tell me about Hard Core scene in Bulgaria?

Bulgarian hardcore scene is great – that's all I can tell. You should check it out – we have some amazing bands like Vendetta, Indignity, Outrage, Breakaway, Not Broken In Spirit, Switchsatnce, Dead End, Vzriv, Crowfish, Death Squad, Cut Off, Cold Breath…and many more. Gigs are unbelievable and a lot of kids are showing up. The scene is young, but very tight and constantly growing and progressing. It's very united and everybody helps and supports each other out – no divisions and bullshit like this, just all together! We're very proud of the hardcore scene in Bulgaria. Everybody who wants to hear real and sincere hardcore should check out our scene!

10.What you more listen from music?

I listen to all kinds of hardcore and all kinds of other musical styles... As far as hardcore - I listen to a lot of stuff - from old school to new school, from youth crew straight edge to tough guy mosh core... just everything that is good :)

11.Who is the crew Last Hope? Hard Core, Punx.....?

If you\'re asking what kind of people come to our shows, I would say all kinds of people - mostly hardcore kids, but also we see a lot of punx and metal heads at our gigs... and just regular street kids... basically everybody from the underground street community... Of course the majority of the people that come to Last Hope shows, are part of the hardcore scene. We\'re lucky to always get unbelievable support from the whole scene!

12.In the future, record, concert.....new album?????

As I said we\'re working really hard o n our brand new material for Last Hope\'s next album - we hope we\'ll go in studio to record it in late spring or summer... it also depends o n our touring-schedule and what our label will arrange for us... Actually we just got the latest news that we gonna do a full European tour with the New York Hardcore legend Murphy\'s Law in June/July 2005! This is absolutely amazing for us - another dream coming true! So, I\'m not sure if we\'ll enter the studio before or after that tour - as we don\'t want to rush with the writing and recording the new album, I guess we\'ll do it after the tour with Murphy\'s Law. o ne thing is sure - 2005 will be a great year for Last Hope!

14.All the best and see you in the concert HC legend Agnostic Front.....

Thanx! Check out our web-site www.lasthopehardcore.com and watch out for our new album somewhere in summer 2005!

BJESOVI

Presents the band Bjesovi from Serbia,Gornji Milanovac.Interview by Stole!
1.My zine Young Forever and me as it`s editor decided to interview Marinko Bjesovi band!Before all,as I said in various oceasion`s my zine is about unision of bands,thus my zine is a Hard Core,Metal,Rock`n`Roll,PUNK and everything else.I`m saving that I`m editing zine to unite bands and that's the reson to interview to Marinko as he`s acting for unision of bands!!!Bjesovi band are on scene for a long time they edited 4 albums so far plus independent Divx which they spread among people.Bjesovi are one of the best of our R`n`R scene,they played a lot of concerts and their performance on stage is exceptional….First question`s for you Marinko:Argn`t we tired of disunision of bands and zines on the scene and is it possible to make one whole scene so bands could collaborate with each other instead of disuniteing themselves?Did you have an opportunity to unite bands?Give me your opinion of bands UNISION?Tell me about it????
Marinko:Serbian R`n`R bands really have poor interaction…I don`t think that`s for envy of such thing mor likely it`s becaused there`s no media support as addecuate magazines radio and TV broadcast cause most of the communication between people and initiatives is happening not only through direct but also through indirect interaction,by reading and watching other people`s ideas and work as by personal participation in the same process.I also thing that not only us Serbs but whole word had lost hope that art could change anything or that some other pacific confrontation with the forces of evil could do such thing.They are very strong as this moment…they`ve poisoned everything they brought disorder everywhere…damned them.Thre`s no more great ideas.All revolution`s are betrayed and abused.Religion`s are tired.Money is the single God.Our civilization has cancer witch is metastazing.

2.I have an opinion that politics and money are influencing music here people are not doing it with all their heart but only for money and I think that fucking establishment has falshe opinion about us in R`n`R music!Marinko,do you think that politics gouvernement and fucking establishment might influence all that disunision and all this with us?
What`s your opinion about politics and this government?How much politics influences the music?Is R`n`R now all about money???
Marinko:I`m not against the money in my own pockets,but I also think that my own appearance,rich and powerful in the extremely poor and miserable environement would be repulsive to my self.I think that our country is going for that type of capitalism with overwealthy minority and on the otherside demoralized terrified manipulated and robbed majority.Our current politics is a logical continuation socially,of ideas of mister Slobodan Milosevic.That`s the same path I`m afraid of this course,but the die is cast the doors are closed behind us…We must go on to reach,afther who knowshow long and difficult jurney,the goal that night be in front of our own noses in the very beginning og the ways!
3.I know almost everhything about BJESOVI conserning music,concerts and so on…...I know that you`ve spread for a while and that Zoran the second vocal of Bjesovi had left the band and that BJESOVI weren't working for a few years now,I would like to"peep" in those flows of Bjesovi what disunite you in that moment and what made the band stop it`s work for a while and do you even know the reason Zoran left the band?I`m sorry but onestly I have to say that when there were two vocals you and Zoran everything was first-class(of course now it`s o.k. too),but then in your concerts everhiting was"craching"...Do you plan to introduce one more vocal to get as in Zoran time?
Marinko:I am Zoran and Goran is the one who is not in the band anymore he lives in Belgrade works as a camerman at third channel RTS and has his own computer school.Bjesovi break down on 1997 was on my initiative cause I couldn`t adjust my new found cosiosness og God is existence with earthly art wich,honestly never was favorised by Ortodox church through wich I became aware I adjusted those two kinds of love first han I invited to participing in new incarnation of Bjesovi was Goran but he already was involved in"serious"existetional theme,that he remained deaf to my appeals.I missed him in the beginning,nos so as an artist but a personal level,he was my best friend,best man of my firstborn son Pavle.But,as time goes by I think that new Bjesovi are very good band even without him.Who disagrees,don`t listen to our music.
4.O.K.,lets talk a bit about your last edition d.i.y Divx which is as I think really professional,what a pitty that it`s not offered to some editor to come as an original DVD?Altrough it`s not that important,I want to know what was the number of copys of the disc,I know that you`ve spread it gave it for free am to people did you sell some copys to cover your expenses at`least?Did you have anybody to sponsor you in realization or you did all of that in your own expence?Ig it`s not a secret who did the sound on video on Divx in such professional manner?
Marinko:This independent edition represent Bjesovi`s wish to present us to wider auditorium not only through their ears but also through their eyes,to make them feel that positively twisted energy of live play compared with the studio made music.So,this Divx was noa a market it was only gived away as a gift.That was on purpose.With that gesture we wanted to express our own comment to the situation in our country and and in the world where everything is on sale and everything has a price.As about the sound multichannel recording did Milan Barkovic-Bare in whose studio in Zemun we mixed all the material in only one night.Afthernise,I did a bit postproduction at my home

where the most of video composition was done and following multimedia for this album as well.Realisation of Divx visual was prolonged to more than a half year time because of my and Dragoslav Petrovic obligation`s,but the final result is worth of every night we didn`t sleep and more!
5.Yes,yes,as you said that`s what matters,to deliberately give away your disc`s for free so people could understand the power and energy of Bjesovi and to realize there`s no separation`s in R`n`R we`reall in the same place metal players,rock players,punk players and all the others one and only message is"UNISION"!!!About Bjesovi text they so I`ll say varie.In the begining of Bjesovi text`s were a bit dark and there were song`s like:My legs carry the dead man or Murder me and so on……
I say dark as in a writhing of a text but afther a studing it not like people I know who rongly understood Bjesovi text`s and afther hearing mentioned chours like above think they`re Satanist`s like some sect or wors…So people misunderstand text`s and I think yhat they don`t have anything to do in R`n`R they poison R`n`R with those stupid remark what do you think about that?What are the themes of Bjesovi text for your next album?Would you comment some of that???
Marinko:Bjesovi are so far in almost fifteen years of existence published only thirthy or so of their own text`s.So low number is not only because of poor editing conditions but also becase of a restrictive aspiration not to tell everything that we think.Afther the first album we became avare of our own charm and the way we`re heading,and through the second conclusivly with our third album we signed death certificate for our band finishing completely already clearly defined concept Bjesovi always had that chaotic and dark but catarsis component which is at the end possitive and has a purifying goal.Text of new song reflect the time we`re living in and us opposed to it and mad but not trough conflict cause that way of filth.Is lost fight in the beginning but through purity and graitness of love that the c reator feels for us and in which image we are made like.Of course,this love should primary be manifested through concrete evidence of devotion and attention to other human beings and if you wish ,to the animals,herbs,even unliving thing`s which are very important and indispensable to physical part of our nature.Remember the air that we bread,the wather we drink,ground we walk on……

6.Talking about the religion,beliaves and other……I`ll say my own opinion about it and than it`s your turn mister Marinko:Listning to some punkrock bands signing that religion makes wars black metal bands who swear it they all are endeavouring for protest against church and God as metal(black)music and they sing about Satanism,distraction of churches and preasts and I cant the about those ideologys cause that"effects"me as an Orthodox Christian and I as an individua don't accept it but I don`t judge it as every man on this earth has a right to his own opinion and can be boss of hiself but not to the disturb

the point of view of another person.I feel so stupid about all the wars that had happened in the Ex-SFRJ cause I think that basicly was religious war cause Serbs didn`t want to accept the Catolicism and Muslims didn`t want to admit the beleaf in Christe wich lead to a great war…I feel sorry that all this happened!!!If you are Orthodox Christian if you are a Catolic or a Muslim you should never resent the other man for his faith.I think that faith should be about peace,of mind and not war and suck thing all of that I`m saying about unision people in R`n`R and also about peoples faith we shouldn`t make distinction everybody has a right to be what they want and to believe in what they want but not to harm the others.I`m personally against Satanism and religious sect cause I think they"disfigure"truth faith of people no matter what`s the God they believe in and I would never criti…anyone and none the same to go to war against them who aren't the same religion as I me everybody has a right to be whatever he wants!Marinko,I as know you were Christian and you `re now converted Muslim!Do you think that someone can"estrange"his faith and make war(I have trouble writhing the world war cause I m great peacemaker).Say something what you think about my expose .Tell me more about Muslim`s religion???

6.I`m sorry ,but I cant introduce you to Muslim religion because I`m not too much acquainted to it my convertion to Islam was for a jock with tv Studio B journalist but I seem to act it soo good that many people had believed me.Honestly I appreciate every believing man to matter what religion he belong to if the object of his belief is not only money and power.We all know what`s right or wrong and at the end you don`t have to believe in anything to be honest and franc.

7.Talking about the music I think Bjesovi have the most of metal elements and the rest is cross with other strong elements as rock,punk,dark…..As we said a hundred of times in this interview and in the whole zine music should be united and not straight in ones taken path to the infinitives.When the inspiration in this path is gone bands full apart and music goes to hell.What would you answer to journalist question what kind of music are you making and playing?Would you say united R`n`R or metal kind of music?What`s your opinion about Bjesovi music?Who is making this music Bjesovi are playing?Do you talk about chours you`re going to take in your sessions?Answer me?

7.Bjesovi music mostly begins with me than goes through band and ends with me again.The pyramide of roules and responsibility must exist in every kind of peoples organization,cause without in the can make chaos that is a beginning and origin of every evil.Since I listen to so much of music with all my love and attention,I can say I know all it I`m enlightened.And as I bring my song to session to other members of the band to feel it and play it in their own way before I decide what stays and what don`t some would say that`s an apsolutisme so i`m enlightened apsolutist and this way I put myself between myself and people,public .I put my band there.I surrounded myself with intelligent and talented people who like what they`re doing and result is an eclectict creation that consist of,paradoxaly,at the same time great freedom and great discipline and personal selfcontrol.

8.All right we said now many official editions Bjesovi have including one Divx and that's all for the moment!For two and a half years Bjesovi didn`t edit new album!Do you plan it?Are you working on some new songs?When can we expect new album of Bjesovi?What editor do you consider?Do you plan an independent edition of an album so you could have graither deal in control of distribution and sale of discs,could it be better?Mister Marinko tell me few words about it?

8.We`re preparing new edition of Bjesovi but when would it came out only God knows!In our independent music industry is a mess.On the other side there`s

RTS as state music editor.Their edition concept is tottaly vague to me,and I doubt they would edit our new album if we offer it to them and even so I don`t believe they`ll make an effort to advertise it there are Pink and BK,they have doubtheous past but excellent private distribution and marketing but they `re playing safe and when R`n`R shines again in the whole word they will be there..I don`t know,we`ll see!
9.You have concerts from time to time I`ve not seen live cincerts of Bjesovi for long time I hope some of it soon!Do you prepare some good play ?Do you have any invitation to performe in following time?Do you have established price for your concert?How much does`it cost if you play for exemple in Bg at Youngs club?Do you have all the same prices where ever in Serbia you play or it depends of the distance from your town Gornji Milanovac and the price night change?
9.These are some important questions and answers to them change from one month to another almost depending of changes in the in side and out side political situation.There`s also a factor of personal satisfaction ifnot trough money(cause there`s no money)than through public echo wich is more and more silenced although the society supposably changed.It seems that consious individual is welcomed never and in none state establishment no matter how democratic or not it could be.So we play but rearly for divers prices and in divers conditions.I`m trying to preserve the band even without playing..
10.As I said in the introduction and through this interview I`m for unision of music without making differences I can listen to metal,hardrock,hardcore,punk..How is it with you?Do you have strict kid of music that you listen to do you for exempl like death metal so if some of your friends offers something else you reject it do you avoid some of musical kinds or you listen to what your ears appreciate most,name some bands for the orientation???
10.Exclusivness of kinds of listening or playing is contributing to making geto and destroying the ideas of freedom and eaquality that is for me basic in R`n`R.”Divide in rule” is old many times proven tactic for submition and distruction but always is effective case it pleases the vanity of the individual.That always works..and will work the information`s had always been the most powerfull weapon in right or wrong hands it doesn`t matter communication,gathering,Unision.We must understand it if we like our brain,or we`re sinking in the history pit.
11.Zines,magazines,publications..I had seen hundereds of zines and publications musical of course ,but most of them(I mean our native zines)are consisted of so called”simple” and “quick”interviews zines were made in couple days time I personally know some people who interviewd two or three bands by mail wrote almost dosen stereotypic rewiews and stupid texts edited it in few days.It`s not the right way to make a zine.One should sit down and think it over.One should have personal attitude and not mixe everything.Those zines have short durance and those people say-I have no time for this stuff that`s in my past”)thinks is stupid.We should not be conserned for such obstacles!Not to menton the animosity between people who edit zines they swear each other they gossip they say his zine is bad mine is the best.Mot just music but also zines here are unhelty and deffinitly polluted.Marinko,how to make people understand that they should help each other that we`re all in the same business how to make our zines and music scene pure healthy and strong what shall we do?Did you read some good zine an did you even hear of some of our o.k. zines???
11.Are you right or not I wouldn`t know cause I dint involve myself in this scene,but this attitude of yours is not in favour with what you say you want,and that is Unit!As someone who`s been in the music business longer I

must warn you what I`ve learned from my personal confirmed in life reality.Never,judge another person if you don't have to.Teach through your own exemple!You get it?You see would you cut out previous question and my answer to it..Maybe you should..Maybe not..As my father would somethings say:"You Goran(Predrag)should act in Gods will!"..
Editors remark:I think you misunderstood me and that you`re WRONG!!!!
12.I think I noticed everythings about band Bjesovi and asked you most original questions in my possibility I hope I didn`t make any mistake,I hope that Bjesovi will go on"rocking"and being the toughest on our R`n`R scene ,I hope that Bjesovi would ménage to make our music scene a bit better with with their UNISION aspiration I wish you all the best as to you band members.See you in a concert with couple of beers and a lot of fun while strifeing for R`n`R!I can hardly wait to see and enjoy the concert of the best Serbian R`n`R band!!!!!!
12.Marinko:Thank you.I`ll let you know about our next concert!!!!!

Promotion of Stronghold's first official album
Bands:Muzika Poludelih(Vojvodina),www.mpfamily.tk
Stronghold(Zagreb),www.strongholdhc.com
After arangeing a show in Zagreb,to play as special guests to our friends Stronghold,the MP Family started the roadtrip to Croatia's capitol.Passing the border,and the birocracy on both sides,the trip lasted about 7 hours.With the arrival to the club KSET(which is in the center of the city),the party from the van was just extended .Having a sound check and setting a good sound,We had far more time to spend it with our friends who invited us.After few beers and some dinner,the show kicked off about 22.00.First on the stage appeared Muzika Poludelih,a Hardcore-Punk Band from Vojvodina,Serbia&Montenegro.
The crowd liked the heavy hitting sound of the streets,mixed with some classic oi-punk guitar riffs.MP played abot 45 minutes(with one BIS),hits from their both albums,includeing 2 cover songs(Agnostic Front,Madball).Pogo was all the time,Zagreb crowd showed how to welcome a friendly band.The people where fancinated when the singer of Stronghold,Karlo,got up the stage and helped Djakon to sing Pride of Madball,awesome!MP finished,and STRONGHOLD started their new album promotion!Loud,heavy guitar in the vain of classic New York and Boston bands created a mayhem on the dance floor.After the first song there were some technical problems which lasted to the end of the show,but the people didn't care,the party was on the top!After the show the whole crew got together for takeing pictures,doing some interviews…and of course drinking good Croatian beer,Ozujsko ☺.The patry moved to a local caffe near the club,and lasted few hours more,when We got back ourselves to the van and started the trip back home.To this adventure,and Our first time in Croatia,I can add that the people who invited us,the crowd,and everything was on the

highest level,thanx guys.We hope that We Will Make It Up To You When You Come Here.Personaly,I Was Fascinated!
Sorry for the poor English…

15.March 2005,Budapest,A38 ship,20.00
Ticket:16 euros
AGNOSTIC FRONT,Diecast,Death Before Dishonor,Punishable Act,Boiler
When I Was informed that one of my favorite bands AF will play in the near country where Me and my friends go to see some quality bands and shows,the speculation getting the ticket and a place to crash started.A large ship A 38 is on the Buda part of the city,of course on the river Danube.Very nice place for gigs is under the deck of the ship,it can get about 600 people,it was full!In the bar were set the desks for selling the merchandising for all the bands.The show started at 20.00,a local Hungarian street-punk band Boiler opened the stage.After them German HC Punishable Act,I liked them.Then Death Before Dishonor from Boston,US,very,very good band,played their songs from the album True Till Death,and some older stuff,my kind of Hardcore,hard hitting,impressive!After them came Diecast,also from Boston,but completely different styled music.Metal,Metal,Metal,but in the vain I don't like It,sorry,but respect!
And then come the kings of New York Hardcore,AGNOSTIC FRONT!!!Starting with the song New Jack,Roger Miret joins the crew on the stage!Continueing with the song The Eliminator,the crowd just continued to party,pogo,stage diveing…All the well known hits were played,except some of my personal favorites ☹After the song Crucified the Ship was ready to explode!The new album was played almost completely.I must add that Roger injured his shoulder during the first song,and he had some problems with it all the time,but he showed that he is a big proffesional!Some nazis in the crowd tried to provoke people,but they were ignored,and the security kicked their asses,respect to the Security!I cold write 10 more pages abot this whole gig but I think this is enough.In my memory this is one of the best shows I'we ever seen,the sound was perfect,but it lasted too short for me ☹
Sorry for the poor English…
